

Answers will vary and depend on the numbers rolled by the children. The data in the tally chart must match the data in the table.

Fruit	Tally	Total
apples		
bananas		
oranges		

- 1) False because there are 4 oranges and 6 bananas. 4 is less than 6.
- 2) False because there are 10 apples and 6 bananas which means there are 4 more apples than bananas.
- 3) True because $10 + 6 + 4 = 20$ pieces of fruit altogether.

Red	Yellow	Blue	Pink	Orange	Green	Purple
2	6	8	6	4	1	3
